Exquisite Musical Instruments
for Children and Young Adults

Piccolo Maestro

Introducing our latest, most exquisite brand of musical instruments for children and young adults, Piccolo Maestro defines a new standard and prestige in strings instruments for the young masters of today and tomorrow.

The Wood: at its finest. Piccolo Maestro instruments are carefully crafted out of one of the best woods in the World, a local, dried in natural ventilation, 7 to 19 years old Romanian Maple.

The back sides of most of our instruments - including on one of the double basses - are carved from a full piece of wood, an extremely rare product of nature, for the most superior resonance.

The Models and Accessories: Piccolo Maestro Exquisite Musical Instruments are designed using Stradivari 1715, Magini or Guarneri models. The accessories are produced by Thomastik-Infeld, Pirastro, Aubert, Despiou and Rubner, guaranteeing a high quality of sound.

The Assembly: Piccolo Maestro Quality Test operations are put in place to obtain the best fine tuning of each individual instrument. The procedures are explained in detail in this catalogue.

This catalogue provides sample prototypes of our concepts, as well as information about orders, and ways to reach out to us.

Piccolo Maestro International Participation

You will find us at MondoMusica Cremona, Italy - Booth 209 - between September 29 and October 2, 2016, and at Music China, Shanghai - Booth E4-C24 - between October 26 and October 29, 2016, where you can visit and grasp 12 prototype violins, cellos and double basses, of sizes 1/4 - 1/2 - 3/4 - 7/8.

These prototypes for children and young adults benefit from the most exquisite accessories, and finishes / varnishes of various colors and consistencies, to fit all tastes.

Piccolo Maestro Quality Tests

All setup and accessories installations are coordinated by a professional luthier, using electronic equipment for fine adjustments and tuning.

Further quality tests are applied on each instrument by calibrating them inside a special zero-acoustic room, which helps perfect further the quality of the fine tunes.

The final test phase involves a real-world validation by a professional instrumentalist together with the luthier, to ensure the best possible setup of the instrument is applied.

Certificate of Authenticity of Instruments

All our instruments are accompanied by a Certificate of Authenticity, signed by the producing luthier, underlying technical details of the instrument and its production.

Buy Back Warranty - Club Piccolo Maestro

We are committed to carefully craft the perfect instrument for your young ones, as they grow along with their talent. Therefore Piccolo Maestro offers you Buy Back Warranty - when they are ready to take on a bigger challenge, we will support them with new, suitable size instruments.

Membership in the Club Piccolo Maestro is automatically offered upon your first purchase, and benefits include special fees for repairs, discounts for further purchases, and buy back options.
